

# 2020 CRISIS TIPPING POINT

GLOBAL ALERT! APRIL 2020

*“PERHAPS IT IS A UNIVERSAL TRUTH THAT THE LOSS OF  
LIBERTY AT HOME IS TO BE CHARGED TO PROVISIONS  
AGAINST DANGER, REAL OR PRETENDED, FROM ABROAD.”  
– JAMES MADISON, 1798*

## SITREP - ABSTRACT

As a result of the “worldwide crisis,” caused by corona pandemic and financial insecurity, the economic system, which pumps currency into the market for free, the monetary architecture is stressed. A method of perpetual stimulus that relies on fast consumption ends.

The next phase - Each wave of both pandemics, as well as a financial crisis, is more destructive. Social distancing and lockdown measures effectively halted production and services; counter pandemic measures merge with the results of the financial crash. The financial impact is life-changing, economically devastation, and creating mass dependency on the state.

Extremist organizations expect government continuity to crumble and stage coup D'états when government services in economically weak areas cease to exist.

## Corona Pandemic and Financial Crisis

*As a result of the worldwide crisis, corona pandemic, crashing of oil prices by Saudi Arabia, the economic system, a system of perpetual stimulus which pumps currency created for free into the market that relies on fast consumption, ends.*

If you let it, you want it?

**Social transformation and chaos intertwined. It is challenging to control the chaos. Internal and external security (satellites) redefined in this process. Politics and government as well. A train of an industrial revolution on steroids is coming at you, a digital economic and social order.**

The next phase, mass dependency on the State

Each wave of both pandemics, as well as a financial crisis, is more destructive.

The social distancing and lockdown measures effectively halted production and services; counter pandemic measures merge with the results of the financial crash. *The financial impact is life-changing, economic devastation, and creating mass dependency on the State.*

World War with new dimensions.

A combination, pandemic, financial crash, and mass dependency is known to move towards wars.

**New dimensions, nevertheless, the purpose of war is destructing to control. People in Europe who survived a war say that today feels like wartime and economic warfare against populations.**

It looks like a duck, walks like a duck, it is a

For the world's financial institutions, IMF, Federal, and Central banks, parts of the financial crisis combined with corona safety lockdown rules and emergency laws are an opportunity to morph or shock the stressed monetary architecture into something new.

## Extremists Plan for Coup D'états

*The pandemic and financial crisis established Presence and Fear by killing or ruining at random. An opportunity for other **Fear-Based Narratives leading the public into Emergency Mode**. A strategy for movements to inflict immediate, radical, economic, and political change upon nations, *this time initiated by government health policies.**

The stock market was under steady pressure by doubts and media coverage of coronavirus worst-case scenarios. On March 8, Saudi Arabia announced to increase oil production with more than 10 million barrels a day, running the price of oil into a free fall. On the morning of Monday, March 9, the bull market was dead, confirming a recession. Days and weeks later, *travel restrictions, social-distancing, and other containment policies confirmed economic disaster.*

**Citizens depend on their leaders, but Governments are unable to solve undefined transnational threats, deny a new normal, and de facto suspend democracy by introducing safety regulations and emergency security laws, creating mass dependency on the State. Not all countries can financially sustain government services and the financial survival of (businesses and) citizens for six months or more. If not, it's a matter of weeks before people lose trust in government, numbers, statistics, and the rule of law!**

## *"Government continuity to crumble." Extremists, Industrial and Military adventurist count on it.*

When luck strikes, piggyback and ride the waves

Extremists often have unrealistic visions and under normal circumstances, unattainable missions. No uprising, insurgency, or democratic process, seems to produce the *Shock and Awe necessary to secure their missions.*

**Only once in a lifetime, luck strikes, a combination of desired circumstances, and an emergency mode of the public falls in their lap. Now it is just a matter to piggyback off and ride the waves.**

The Nexus

Within the *Nexus Ideology, Crime and Politics*, extremist movements regularly assess their chances to attain their (long term) missions. When there are significant changes, they inform their members by picturing the developments within a timeline and the context of their movement.

Older assessments focussed on refugee streams, 5G mobile networks, Islamization, impeachment, climate, and lesser economic crisis induced by crime, causing the possibility to enlarge the base and creating dependency.

**In recent months all assessments focussed on opportunities arising from the coronavirus and financial crisis.**

The current planning and timelines of the different movements have in common:

- They expect Fear and Presence already established and the public in emergency mode.
- That *before July* (Estimated for weeks two and three of June – calculated on June 13, 2020), it becomes apparent that *government services* in their target countries (areas) *cease to exist*. A preferred moment to get mass public support for terror attacks, Coup D'états, and civil (war) disobedience.

**The (century-old) dreams of left and right-wing extremists in Italy, and Spain are to grow their base exponentially when continuity of government crumbles. Such long term narratives befit most countries. Even in the United States, government continuity is at risk within months!**

**Government services cease to exist In the emerging economies (not limited to!), Venezuela, Argentina, and Ukraine allowing for military, organized crime, neighboring countries, and political extremists to stage a coup.**

In outsider Turkey also ideological extremists from Daesh stage a Coup D'état  
The coronavirus pandemic deepened the crisis and triggered a plunge in currency value and foreign revenue.

Technically bankrupt

With this year, \$170 billion debt due. And issues like with the state-run Halkbank evading sanctions on Iran. *Turkey is technically insolvent and scrambling to avoid default.* Seeking relief for its financial obligations (China?) will only delay President Erdogan's moral bankruptcy and the breaking up of the country. In any case, something that terror organizations could not achieve, Fear and Presence, is established by the corona and financial crisis. The public is in Emergency Mode, and government services cease to exist in large parts of Turkey.

Details of what followers of ISIS DAESH shared in March concerning a Coup in Turkey:

**حديث: (يجمعون له الروم والترك) وعلاقته بانقلاب ثان ناجح في تركي  
..السلام عليكم**

كلكم أعضاء المنتدى الأكارم معروف لديه الحديث الوارد في المهدي وأنه يجمع له الروم والترك لقتاله مما يؤكد عندي حتمية وقوع انقلاب في تركيا ضد حكم العدالة والتنمية سينجح هذه المرة لأنه حسب توقعي بخروج المهدي في سنة 2019 م لابد أن يقع الانقلاب قبل سنة 2020م لأنه في تلك السنة يقاتل الترك والروم المهدي في الملحمة الكبرى تسرب ذلك من سفر دانيال الكامل الذي يخفيه اليهود والنصارى لعدة أشخاص وجهات منها المنظر والمفكر الجهادي أبو مصعب السوري والدولة الإسلامية داعش وآخرين ولذلك أتوقع حدوث انقلاب قبل الشهر السابع من 2020 أو قبل نهاية تلك السنة ومن رأى حجم أعداد المعتقلين في تركيا لعلاقتهم بالانقلاب يعلم أن الإحتقان هو سيد الموقف وربما أدى إلى الانفجار في قادم الأيام .

'A' Translation:

Hadith: (Collecting rum and Turk) and his connection to a second successful coup in Turki

Peace be upon you..

All of you members of the Forum Akar al-Akram is known to have the hadith contained in Mahdi and that he gathers rum and Turk to fight him, which confirms to me the inevitability of a coup in Turkey against the rule of justice and development will succeed this time because, as I expected the departure of Mahdi in 2019, the coup must take place before the year 2020, because in that year the Turk and the Roman Mahdi are fighting in the great epic, leaking from Daniel's complete book, which is hidden by the Jews and Christians, to several destinations, including the theoretic ian Abu Musab and the Syrian State, and the Islamic State of Syria. ISIS and others, therefore, I expect a coup before the seventh month of 2020 or before the end of that year and who saw the number of detainees in Turkey in connection with the coup knows that the friction is the master of the situation and may have led to the explosion in the coming days.

King Solomon dies soon, or he's already dead, and when he dies, it will be the beginning of epics and seditions that will only be revealed by the decline of gold.

## FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.
