Situation report by colleagues:

The influx of 54 new foreign fighters terrorists from Pakistan to Badakhshan province in this ten days:

Date: 15_12_1400.

54 foreign fighters terrorists, led by Sheikh Tahir

A total of 54 foreign fighters terrorists, led by Sheikh Tahir, a senior member of the East Turkestan Movement, have entered Badakhshan province of Afghanistan through Pakistan over the past ten days.

These 54 include 25 Chinese Uyghurs, the rest belonging to Jamaat Ansarullah Tajikistan and the Islamic Movement of Uzbekistan. These terrorists have war experience in Syria and Iraq. They came directly from second and third countries and did not learn the language in Waziristan, and they did not speak Persian and Dari correctly. They speak Uyghur, Uzbek and Turkmen languages. And about 12 of them are citizens of Tajikistan who speak Tajik. They stay in foreign fighters' camps in Badakhshan province. About 80 percent of the foreign fighters, who had become familiar figures in terms of identity, lineage, and cognition with their ill-fated people, had been transferred to Takhar, Baghlan, Kunduz, and Faryab provinces. Meanwhile, a small number of 42 foreign fighters led by Abdul Haq Uyghur, a high-ranking member of the East Turkestan movement, has entered Badakhshan province via Pakistan.

Abdul Haq has been transferred from Baharak district to Warduj district because his identity has been, more or less, revealed. The purpose of the infiltration by international terrorists is first to create, cultivate and keep alive their terrorist culture and identity. And also, in the next step, use these groups with false Afghan identity and citizenship.

These fighters include military units, and it is worth noting that the whole process is carried out under the direct supervision of the Haqqani Network and Siraj Haqqani himself.

Situation report by colleagues:

Ministry of Defense

A few months ago, the Ministry of Defense had a significant army that the Taliban National Army recruited. Because the people mentioned above will not be given monthly salaries and benefits, for the time being, 55,000 people have left their jobs from the ministry of defense. And those in charge of recruiting for the Ministry of Defense are rapidly recruiting new underage youth. However, no one wants to be involved in drafting the Taliban military.

According to a survey, the central organization of the Ministry of Defense and Interior of the Taliban reaches 78,000 people, who have left their job for a week, of which is 19,000 due to the lack of a monthly salary.

Our source adds that out of concern that more people refuse to join the police and army, the Taliban Interior Minister Siraj Haqqani unveiled a play a few days ago that also appeared in the media to gain the people's trust.

At the same time, the Americans had instructed Sirajuddin Haqqani to show his face in the media.

Qari Fassihuddin travels to Badakhshan province:

According to a series of previous reports, clashes broke out between the Taliban in the Kuf-e-Ab-Darwaz commissariat, which resulted in several people being wounded and killed. Qari Fassihuddin has acted to prevent the situation from being used by opposition groups and has settled the issue with the Taliban. And again yesterday, he came to Faizabad by plane from Kabul. He was in Faizabad and spent the night in the Warduj district. As mentioned earlier, Qari Fassihuddin, while resolving the Darwaz case, he is seriously concerned about Badakhshan. Qari Fassihuddin and the Taliban leadership are most worried about Shohada, Warduj, Ishkashim, Darwaz ha, and Baharak.

Qari Fassihuddin has come under pressure from the Taliban leadership. He may be in Badakhshan for a few more days to establish and strengthen the military sect of Badakhshan. Every day they propagandize that the people will be recruited with privileges by the army in Badakhshan, but they accept hunger and are not ready to join the Taliban.

INTELLIGENCE USE ONLY

FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.

Some paid advice

Ultimately, one can find them all to be human failures.

But suppose you believe that wars and insurgencies resulted from intelligence failures, or even worse, a lack of strategy. In that case, consider yourself lucky because nobody will tell you their actual military strategy and intelligence policies for you only to have an opinion. No, you are at the receiving end of a successful strategy and intelligence narrative.

A context of intelligence operations

Since 2007 the intelligence services prepared for a significant shift in real US geo-policy, military power, and intelligence.

An essential part of that shift, leaving war zones and decreasing its military presence in partner countries, occurs. It is explicitly cutting off Iran, Pakistan, and Israel. Allocated financial DoD resources show that what remains are substantial special operations (US-SOCOM) [...] a prioritized global monitor function. [...]

Why HUMINT

Why do we need secret agents? Isn't it all rather quaint?

Is it that we see a different, more frightening world than you do?

Our enemies are no longer nations and do not exist on a map but are non-state actors and unknown individuals. Look around you, who do you fear? Can you see a face, a uniform, a flag? No. Yet, before breakfast in their pajamas, they can do more damage from their laptops than an intelligence agent can during a year in the field. Online organized crime doesn't know law and order, has a Wild West mentality, and is lawless to the core. Anarchy.

While transparency became fashionable in the West, the world is not more transparent now. Today it's more opaque, in the shadows, and that's where we do battle. So, before you declare that irrelevant, ask yourselves, how safe do you feel?
