Qari Farid, the representative of Baharak Transport, has been appointed by Mawlawi Amanuddin. Currently, 12 bodyguards of mawlawi Amanuddin are taking security measures for Haji Forqan. He does not go out during the daytime. If there is space, he travels by a black armored car.

Mullah Yaqub 3 Badakhshan districts

Source:

Date: 5_11_1400 – 25 01 2022

Mullah Yaqub held a security meeting in Qalatak district of Baharak district today. After eating bread in the Warduj district, he was welcomed by the locals. Later, he went to Zibak district and then to Ishkashim district. All special military units Badri military unit and Mansouri Lashkar military unit, are assigned the responsibility of Haji Forqan Qari Siraj to provide security for Badakhshan, and Qari Fassihuddin is present with them.

What was the purpose of Mullah Yaqub's trip to the northeast of the country and especially to Badakhshan province:

- Mullah Yaqub entered the northeast of the country for three specific purposes.

First, the Taliban will launch their biggest threats from the northeast of the country, including Badakhshan Baghlan, next spring in order to take security measures.

Second: They have given special tasks to foreign terrorists (Haji Forqan) and all three terrorist networks, and they have also prepared special military units of Forqan, Badri, and Mansouri to control any attacks, and especially the martyrs' section.

Third: Qari Fassihuddin has started a recruitment program to recruit the Taliban army from Badakhshan, and this process has been monitored and inaugurated.

Fourth: A military maneuver is scheduled to take place in Ishkashim district for the sake of Tajikistan.

Note: They plan to assassinate a number of people with military experience, so that they can not be hired. He will give these duties to Haji Forqan.

In this trip, Mullah Yaqub, all foreign terrorists who have a physical presence in the north, northeast, and Badakhshan, will be included in the salary reform of the Ministry of Defense and will be given salaries and monthly benefits.

Mullah Yaqub 2 Badakhshan province

Date: 5_11_1400 – 25 01 2022

Based on the information provided:

Taliban Defense Minister Mullah Yaqub, currently in Kunduz province, is scheduled to arrive in Badakhshan province. Therefore, a joint commission has been formed to take the necessary security measures, headed by Mawlawi Nisar Ahmad, the deputy governor of Badakhshan. Mawlawi Noorulhada is the Badakhshan intelligence chief, police chief, Haji Furqan, their coordination commander. Mullah Salahuddin also went to Badakhshan two days ago to take security measures.

- Commander Abbas Uyghury is in charge of providing security in Baharak district.
- Qatiba and Qari Siraj took over the security of Ishkashim district.
- 50% of this program is with Haji Forqan. In the spring of next year, they will activate Khroveh's teachings, Mansouri's martyrdom units prepare the Lashkar for any suicidal guerrilla operations, and Furqan is responsible for advancing them. Mullah Ya'qub has such cases, and they visit the border strip closely to examine different points. Details of his trip later.

Mullah Yaqub 1 Trip to Moscow

Date 4_11_1400. 24 01 2022

Currently, in Kunduz province, Taliban Defense Minister Mullah Yaqub is scheduled to arrive in Badakhshan province."

Mullah Yaqub is in Moscow on a secret Trip, visiting intelligence officials. For two days, he was outside of Afghanistan. His brother was not in Moscow. The meeting was with Mikhailov Artem. Translator Dimtrii Dzhinikashvili

It is said the meeting was about terrorism in Afghanistan, especially the Uyghur and ETIM. Russia is worried about the Afghan borders. To show cooperation with Russia Yaqub noted that the Taliban controlled the Uyghur and other terrorists.

In the context of the planned wars this spring, the Taliban suspect Russia of supporting Ahmad Massoud. This makes it unlikely that the meeting was (only) about counter-terrorism cooperation. Meanwhile, in the last three days, the war started in Andrab, Khost, Takhar, Panjshir

Haqqani trafficking network

Date 4_11_1400. 24 01 2022

Source:

Recently, Taliban Interior Minister Siraj Haqqani has set up a network for kidnappings, drug trafficking, arms trafficking, and pollen trafficking in Afghanistan and entrusted it to Ibrahim Haqqani.

Ibrahim Haqqani is the brother of Siraj Haqqani. He is one of the most dangerous terrorist figures that has appeared so far less in the media and on camera. In the current Taliban government, he has no official duties or responsibilities. He currently lives in the former home of fugitive Afghan President Ashraf Ghani.

When he patrols and travels in Kabul, he does that with 12 white armored cars and 34 bodyguards in one color and design. He is currently in charge of the Haqqani Network's terrorist programs. He has been running all of its programs with Haji Forqan's East Turkestan Network ETIM, coordinating with Ibrahim Haqqani.

[5:57 AM, 1/7/2022] @ultrascanneresearch

According to the report of our colleagues:

Assassinations special military unit

Haji Forqan (*), during his visit to Kabul and with the agreement and coordination with the Haqqani network, has created a special force unit, responsibility, and commander of this special force unit is **Hasibullah Uyghur**. This military unit is different from other military units because all instructions are obtained only from Haji Forqan. This unit was organized sporadically a few months ago. Still, after Haji Forqan's trip to Kabul and his meeting with Sirajuddin Haqqani, they agreed to set up this military unit and start operating. Who yesterday transferred military equipment from Kabul to Badakhshan Qari Siraj and today assigned it to them.

A large part of this plot is the assassination of essential people and persons of the Resistance Front. Their second task is to assassinate former government officials who realize that it will be to their detriment. Third, liaisons with Central Asian countries, business people, and charities working for Central Asia to be identified and assassinated. It is responsible for cracking down on freedom-seeking individuals and individuals, confronting Resistance Front guerrillas, assassinating suspects within the Taliban, and ambushing prominent Resistance Front commanders in spring, targeting and assassinating spies from China, Russia, Tajikistan, and other Central Asian countries in northern Afghanistan.

The number of their members is 180. For now, all the budget and logistical expenses of their livelihood and finances are paid by Haji Forqan.

Pakistan Taliban Afghanistan Taliban

[5:57 AM, 1/7/2022] @ultrascan-research:

Analysis by source(!?):

First of all, Pakistan is not currently conducting air operations against the Pakistani Taliban because the Afghan Taliban are being weakened by the Afghan people and the international community.

The Afghan Taliban have made a verbal commitment to the region's countries that Afghan territory will not be used against any country. Pakistan controls the Afghan Taliban and Haqqani network, and it does not want to weaken the Taliban's position in the international community. Because Pakistan is practically lobbying for the Taliban government while Pakistani terrorists are on Afghan soil and Pakistani terrorists are given Afghan citizenship. This seems part of Pakistan's long-term strategy to continue its occupation of Afghanistan.

The second reason is that Pakistan knows that the forces of the Anti-Taliban Resistance Front will start the war against the Taliban government next spring and that the Pakistani Taliban are at the forefront of this war with the Afghan Taliban. Pakistan knows the Pakistani Taliban are not a severe threat to their country but can make good use of the Pakistani Taliban presence in Afghanistan.

That's why for now, it does not want to target them for airstrikes. But it will do so in the future. Pakistan plays big games and chooses Afghanistan as a safe haven to continue terrorist activities To receive money from countries worldwide.

[6:03 AM, 1/7/2022] @ultrascan-research:

Pakistan is currently trying to establish a global presence for the Afghan Taliban and take control of Afghan territory after the Afghan Taliban is recognized. Pakistan may also decide to eliminate the Pakistani Taliban on Afghan soil and is currently working to support the Afghan Taliban to give them international legitimacy. Pakistan does not want to tarnish the Afghan Taliban in the current situation in Afghanistan with airstrikes.

[6:05 AM, 1/7/2022] @ultrascan-research:

After the ceasefire ended, the Pakistani government began suppressing the Pakistani Taliban on its soil.

Haqqani network support ETIM

Report date [2022 01 02]

Members of the East Turkestan Islamic Movement network led by Haji Forqan (*) enjoy the full support of the Haqqani Network and some Taliban leaders. Eastern Afghanistan Nangarhar, Kunar, and Laghman provinces are under the control of the Haqqani network, and the Taliban have no real power in these three provinces. The Haqqani Network fully supports the East Turkestan Islamic Movement. Taliban leadership lies to the world and cannot arrest East Turkestan Islamic Movement members and foreign terrorists because the Haqqani network is militarily more powerful than Taliban members. The Taliban fear members of the Haqqani network and will not intervene in areas controlled by the Haqqani network. Foreign terrorists and ISIS, members of the East Turkestan and Tajikistan Ansarullah networks and the Islamic Movement of Uzbekistan enjoy the support of the Haqqani network led by Sirajuddin Haqqani.

Taliban problems with Pakistan and issues inside the citadel:

Date of reporting January 1, 2022.

Date of submission January 2, 2022.

Fragmented policies

Regarding the domestic and foreign policies of the Taliban Islamic Emirate, a report from inside the Taliban's government palace says it has become fragmented. These differences are between senior Haqqani and Kandahari members. The previous report mentions all the differences between the Taliban leaders. Disputes have now arisen that the Haqqani network does not accept the words of the head of the ministry and acts independently. A few days ago, in an audiotape of the Prime Minister, with comments expressed in a state of tears, he asked the members of the Emirate not to do anything wrong. It turns out that he is not satisfied with the activities of his people.

Pakistani Taliban and Afghani Taliban

An earlier report said Iran encouraged the Afghan Taliban to turn the Pakistani Taliban against the Pakistanis. The Pakistanis understood this, so the Pakistani Taliban became concerned that Pakistan considered them a member of the Afghan Taliban, and 2,200 of them entered Afghanistan from the Orokzai region. Iran wanted the Pakistani Taliban to resist, causing a war with the Afghan Taliban.

Pakistani intelligence created tensions between the Afghan Taliban and Pakistan. The clash at the Pakistani border prevented the establishment of a Taliban base in Nimroz province.

On December 20, 2021, General Ibrahim Afridi, in charge of the fight against terrorism in Pakistan, arrived in Kabul from Central Parachinar. He had already planned the recent Taliban activity against the Pakistani border.

But what is the reason for this?

The Taliban have two weaknesses in the opinion of the people:

1. The Taliban is an evil and hated name in Afghan society, and no one likes them to rule.
2. Pakistan is also a hated name among the regime and the people of Afghanistan. Now Pakistan wants to make the group popular by attacking its borders through the Taliban, and it seems that the Taliban are separated from Pakistan.

This group can gain global and popular legitimacy and for European and American countries to recognize them.

3. The people in the photos are now in Afghanistan. They come to Afghanistan every day any way they want. They are distributed in quotas for each province. The people at the head of this group are under the direct supervision of Lashkar-e-Taiba Jahesh Mohammad and the Haqqani Network.

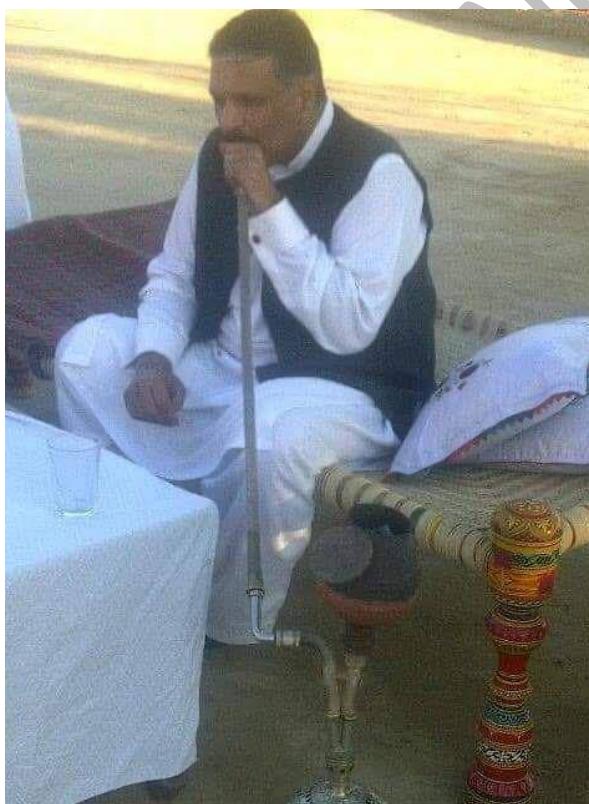

Their influential people are :

1. Abdulrahman Maki.
2. Abdullah Gol, son of General Hamid Gol.
3. Ajazl-Haq The son of General Zia-ul-Haq.
4. Naman Karnel Amam.
5. An officer of MI-206 named Mejor Abed enters and works in Afghanistan.

The Pakistanis want to increase the Haqqani network's power over time and insert their own people in Afghanistan like the ones mentioned above, whose next plan is to assassinate the leaders of the Afghan Taliban under the name of ISIS.

General Ibrahim Afridi came to Kabul from PareChenar. Before the fall of Kabul, two bulldozers were given to the Taliban by Pakistan to pave the way to Arza Logar district and Ghazni area of Khak Jabbar district, which is currently being repaired. It takes about 6 hours to Jabbar in Ranger cars.

Terrorism recruitment supervision

Currently, all terrorist recruiting centers are under the direct supervision and management of Lashkar-e-Taiba / Jaish-e-Mohammad / Hizb al-Mujahideen, led by Hafez Saeed, Salahuddin, Abdul-Rahman Maki, and other terrorist organizations in collaboration with Abdullah Gol, son of General Hamid Gul, A. Gen. Dhi Al-Haq, Colonel Numan, son of Colonel Imam, and a Pakistani MI-206 officer, Major Abed, known as (Abed Baha'i), have been reactivated in several Pakistani cities. To fund these terrorist groups, they have reactivated the "Fallah of Humanity" charity collecting money from all the countries that, in pursuit of their goals, promote extremism in the region, supported by the Haqqani Network.

Biometric passport data and Haqqani network:

The date of receiving the report is December 31, 2021.

Date of submission January 2, 2022.

Reports from inside the citadel indicate that General Khoshhal Saadat was the Deputy Chief of Staff of the Ministry of Interior and later served as Afghanistan's Deputy Minister of National Security. As senior deputy interior minister, he patrolled all of the interior ministry's biometric devices and handed them over to Pakistan's ISI. You can read the reports about his betrayal three months before the fall of Kabul, in which General Khoshhal was mentioned by Shamim Katawazi, the head of the local administration of the Pakistanis, especially the ISI.

Problems inside the citadel

The date of receiving the report is December 29, 2021.

Report submission date December 30, 2021.

Gulbuddin Hekmatyar, was selected by Pakistan and Saudi Arabia to remain in Kabul. The main reason Saudi Arabia has chosen Gulbuddin Hekmatyar is that Hekmatyar is against the Shia. General Hamid Ishaq is one of the people who worked with Gulbuddin in the ISI branch in Peshawar in the past.

Dr. Abdullah Abdullah settled in Kabul during the French and Iranian eras and personally became the ambassador of Iran during the time of Abdullah Abdullah.

Hamid Karzai Karzai

Hamid Karzai Karzai himself, although he regrets refusing to cooperate with the United States in the past, wants to regain his place in the eyes of the Americans by putting pressure on the Taliban and criticizing the Taliban. But Karzai has been living in Kabul since the time of Russia. One week after the fall of Kabul, the Taliban, especially Khostis and Paktika, who are in the ranks of the Taliban, including Haqqani, wanted to attack Karzai's house. Karzai's house is on the road to the Foreign Ministry and has taken over the house of former Afghan President Daud Khan. The Haqqani and Paktika Taliban and the Khostis wanted to attack to take revenge on Karzai. The type of revenge that the Americans used to carry out in the past with night operations and dropping drones in Khost and Paktika provinces during the Karzai era. But the issue escalated so much that night that Russian embassy vehicles lined up in front of Karzai's house, and even Anas Haqqani went to Karzai's house in the middle of the night to apologize.

The issue of Durrani and Mamdzai

The main problem for the Taliban is the issue of Durrani and Mamdzai. Karzai enjoys great splendor among the Durrani family, and the Durrani currently forms the Taliban government. Karzai, who has served the Mammadzi family well during his rule and has good relations, is dreaming of leading the Taliban.

The main reason for Karzai?

Karzai knows that the Mammadzi family can never rely on power, and only power should belong to the Durrani. That is why Karzai is currently the senior adviser to the Taliban. The new generation and the history of the Taliban is a good excuse to get involved. Karzai wants to emphasize the issue of the involvement and opposition of Taliban leaders in Kandahar. If one looks closely, the trip of the main Taliban to Kandahar in recent months shows that the Pashtun leaders do not understand each other in the divisions of the government. And there has been fighting between Taliban leaders in Kandahar in the past two months. Maulvi Abed Akhand is a close ally of Karzai and a high-ranking Taliban official. To make the Taliban appear like savages and force the group to consult with Karzai, he ordered killing individuals and former government members, especially from the army and intelligence.

Taliban fights on the Pakistan-Iran border

Karzai's speech against Pakistani Prime Minister Imran Khan. The desire of Taliban fighters to remain in line in exchange for salaries. Allows for today's Taliban fight at the Pakistan-Iran border and remove barbed wire from the Pakistan-Nangarhar border in the Goshteh area.

Foreign Fighters in Badakhshan province:

The presence and activity of Haji Forqan (*) and the East Turkestan Network and other terrorist networks in Badakhshan.

After the fall of the Islamic Republic of Afghanistan, foreign fighters moved from areas including Khostak valley and Varduj to other districts that were important to them from a geopolitical point of view, such as Baharak, Jarm, and Feyzabad city center.

Four terrorist branches.

- 1- East Turkestan movement under the leadership of Haji Forqan (*) Ighuri.
- 2- Ansarullah movement of Tajikistan under the leadership of Mutasim Ballah known as Mawlawi Ibrahim .
- 3- Islamic Movement of Uzbekistan under the leadership of Artash known as Haris Uzbek.
4. Golmurad Colonel Halimov, in charge of ISIS.

These terrorist networks are organizationally separated, but they work in harmony in terms of ideology and methods.

Organizations of these terrorist groups:

- The East Turkestan movement is the most substantial network which the other networks revolve around and cooperate financially. There are currently approximately 1,000 members of East Turkestan, most of whom are Uighur nationals. 40% in Baharak, 10% in crime, 10% in Badakhshan provincial capital Faizabad, 4% in Ishkashim, 2% in Zibak, the rest in Baghlan, Kunduz, Mazar-e-Sharif, Faryab Kunar, and Jalalabad.
- The Islamic Movement of Uzbekistan, in coordination with Haji Forqan.
- Ansarullah movement is also coordinating with two other networks, but 10% of them have changed their appearance in Raghستان, 30% are moving across borders and gates, using deep cover methods. They live under a new identity and appearance.

Strategic goals and daily activities

From five months onwards, this group buys 90 percent of weapons and ammunition, especially M4 and M16 weapons, at prices ranging from one hundred thousand to one hundred thirty thousand Afghanis. They have a depot of purchased weapons in Khostak valley, a depot in Farakh Baharak, a depot in Warduj, two depots in Raghستان, and Nesi Darvaz, a depot in Kunduz, and a depot in Baghlan. There are more than 50 commissions in Badakhshan that buy all kinds of weapons for them.

Drugs business by Haji Forqan, Mawlawi Ibrahim, and Haris, members of their leadership, start from the low level of opium purchase to large-scale drug trafficking in collaboration with local smugglers and Mawlawi Amanuddin.

Experienced and professional trainers, members of these networks, two newly formed units, the martyrdom unit of Mansouri Lashkar and the martyrdom unit of Badri, will be given military training in the PRT of Feyzabad. Recruits from other provinces are sent to this training center.

- Security measures around Haji Forqan have become very strict, so he does not stay in one place even for a week and travels to Kunduz, Baghlan, Baharak, Badakhshan, Faryab, and Mazar-e-Sharif provinces. After the four-day trip to Kabul, he traveled to another area almost every day.

In Badakhshan, 60 to 70 people are relatives and have seven military bases.

- Haji Forqan was given a share in the revenues of the Azure mine.

- Khalil-ur-Rehman Haqqani, Minister of Refugees of Badakhshan Taliban, has traveled to Badakhshan twice and met with Forqan personally about the military training of the units.

- Haji Forqan, under the direct support of the Haqqani Network, is running programs in Badakhshan in coordination with Mawlawi Amanuddin, the new governor of Mullah Abdul Ghani.

Captagon tablets

Quds Force – Asad – Hezbollah - IRGC

Psychedelic tablets, or Guptagon tablets, are made in Iran in semi-raw materials and enter Syria through the Quds Force by Maher al-Assad, Bashar al-Assad's brother. Bashar al-Assad's brother is one of the influential people in Iran, especially the Quds Force, which is responsible for all Iranian smuggling operations abroad and to Europe. He cooperated with the Iranians for many years and was introduced by Jafar Qadar.

Maher al-Assad has ties with Jafar Qadar, Hezbollah's cultural director in Lebanon. Jafar Qadar is Hezbollah's leading adviser in Lebanon and is responsible for Hezbollah's cyber propaganda and Hezbollah cyberwar against the United States and Israel. For example, a photo of Israeli Prime Minister Benjamin Netanyahu's office was shared on social media, and Hezbollah stated that "we are closer to Benjamin Netanyahu than his outspoken King" Jafar was responsible for this propaganda.

Guptagon tablets are produced in remote areas of Iran, such as Azim, Shukria, and Qasemabad. The reason for production in these areas is because there are many low-income families. More than 6,000 work in these factories. Workers who work in Guptagon factories in these areas have a weekly wage of 3 tomans (equivalent to thirty rials).

Guptagon tablets contain dangerous substances.

Crystal.

Makit rosary is an Iranian industrial material. Many people lose their lives because of the smoke during the melting of makit rosary in Iranian factories.

The ingredients for Captagon are transferred from Iran to Syria by Maher Al-Assad. Lebanese Gaptagon is tabulated and packed with simple devices in Hezbollah plants at the Lebanese border near the outskirts of Damascus and around the coast of Latakia. In Syria, there are small factories, such as abandoned houses and empty villas.

Maher al-Assad coordinates with Syrian and Lebanese brokers the transfer of materials to other borders and ports. Terrorist groups are also supported by selling the same materials. Guptagon raw materials are transported to Syria by Amin Keshavaz. Hamid Keshavaz is one of the influential people in Iran in the narcotics sector. Three years ago, he was arrested in Iran for producing drugs called Tear of God, and after his release, became one of the IRGC brokers in the drug sector.

FIX THIS

The enemy appears driven and motivated by something other than ideology or funding. Every one of these events (could have) occurred as a result of a failure of imagination. The job is not to predict tomorrow based on yesterday. That's what academics do. The task is to prevent the end of tomorrow by using your brains and your imagination. If you don't identify and find the threat before it's too late, you might be held responsible for the single largest intelligence fumble since a flight instruction school in Florida failed to grasp the significance of a 19-year-old Al-Qaeda terrorist saying he didn't need to learn how to land.

Some paid advice

Ultimately, one can find them all to be a human failures.

But suppose you believe that wars and insurgencies resulted from intelligence failures, or even worse, a lack of strategy. In that case, consider yourself lucky because nobody will tell you their actual military strategy and intelligence policies for you only to have an opinion. No, you are at the receiving end of a successful strategy and intelligence narrative.

A context of intelligence operations

Since 2007 the intelligence services prepared for a significant shift in real US geo-policy, military power, and intelligence.

An essential part of that shift, leaving war zones and decreasing its military presence in partner countries, occurs. It is explicitly cutting off Iran, Pakistan, and Israel. Allocated financial DoD resources show that what remains are substantial special operations (US-SOCOM) [...] a prioritized global monitor function. [...]

Why HUMINT

Why do we need secret agents? Isn't it all rather quaint?

Is it that we see a different, more frightening world than you do?

Our enemies are no longer nations and do not exist on a map but are non-state actors and unknown individuals. Look around you, who do you fear? Can you see a face, a uniform, a flag? No.

Yet, before breakfast in their pajamas, they can do more damage from their laptops than an intelligence agent can during a year in the field. Online organized crime doesn't know law and order, has a Wild West mentality, and is lawless to the core. Anarchy.

While transparency became fashionable in the West, the world is not more transparent now. Today it's more opaque, in the shadows, and that's where we do battle. So, before you declare that irrelevant, ask yourselves, how safe do you feel?
